-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

---

Claim 10, lines 12-13, "at least one film or additionally or alternatively" is indefinite since it is not clear if there is one film or multiple films being placed on the additional metal oxide film.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the allowability in combination with the other claimed features is because nowhere in the prior art is there a method for at least making one capacitor having at least one dielectric film-comprising a substance selected from the group consisting of valve metal oxides, their complex oxides with at least one alkaline earth metal. Regarding claim 9, the allowability in combination with the other claimed features is because nowhere in the prior art is there a method for making an integrated electrolytic capacitor having a fractal surficial structure including both a valve metal and an oxide thereof. Regarding claim 14, the allowability in combination with the other claimed features is because nowhere in the prior art is there an integrated electrolytic capacitor having a fractal surficial structure including both a valve metal and an oxide thereof. Regarding claim 15, the allowability in combination with the other claimed

features is because nowhere in the prior art is there a method for at least making one capacitor having at least one dielectric film-comprising a substance selected from the group consisting of valve metal oxides, their complex oxides with at least one alkaline earth metal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
